## DATA ANALYST

00201016749100 | AYMAN21SHEHAB@OUTLOOK.COM | OCTOBER CITY, GIZA, EG

**Dear Hiring Manager,**

I am writing to express my keen interest in the Data Analyst position. With 8 years in management and design, plus recent intensive data analytics training, I'm ready to bring a fresh perspective to your team.

My background has equipped me with strong analytical skills, a meticulous eye for detail, and the ability to interpret data effectively to support business decisions. I recently completed a Virtual Data Analytics Internship with KPMG, where I gained practical experience in assessing data quality, performing customer segmentation, and developing dashboards to visualize findings. Additionally, I hold the Google Data Analytics Professional Certificate, covering essential topics from data cleaning and analysis to visualization and R programming.

I am proficient in key data analytics tools including Python, SQL, R, Jupyter Notebook, Tableau, Power BI, and Microsoft Excel. My projects, such as the Cyclistic case study, COVID-19 data analysis using SQL, and the KPMG-Customer Segmentation project, demonstrate my ability to apply these skills to real-world scenarios.

My transferable skills in analytical thinking, problem-solving, visualization, storytelling, and communication further enhance my profile as a data analyst. I am eager to leverage my diverse experience and newly acquired data analytics expertise to support your organizational goals.

Thank you for your time and consideration. I have attached my resume for your review and welcome the opportunity to discuss how my skills and experience align with your needs.

Sincerely,

Ayman Shehab
